

FILLER GM

SYNTHETIC TAN
CHEMICAL COMPOSITION
PROTEIC FILLER

CHARACTERISTICS

Appearance :	White powder
Active substance :	40-45 %
pH in solution at 10 % :	6-7
Ionic Charge :	anionic
Biodegradability :	> 90%
Storage stability:	do not store at temperatures below 5°C or above 35°C

PROPERTIES

FILLER GM is a product with which it is possible to obtain very full leathers thanks to its high degree of absorption by the leather. When used in retannage **FILLER GM** renders the leathers very full and at the same time extremely soft with a very fine grain. The predominant characteristic in leathers retanned with **FILLER GM** is extreme softness.
