

DEGREASE ANE

AUXILIARY DEGREASING
CHEMICAL COMPOSITION

Degreasing agent based on non-chloridic solvents

CHARACTERISTICS

Properties :	light yellow dense liquid
Active substance :	35% about
pH in solution at 10 % :	5,5 – 6,5
Ionic Charge :	anionic
Compatibility :	anionic and not anionic
Biodegradability :	easily biodegradable
	Directive CEE/67/548

PROPERTIES

DEGREASE ANE is a good degreasing for different uses and it has a good power for to obtain a wetting and dispersant effect. It causes a decisive lowering of the superficial tension favoring the maximum wetting degree of the fibers. This introduction is indispensable to obtain a good degreasing . DEGREASE ANE can be used in all manufacture phases and for all kind of leathers .

KIND OF USE

It is used at 1% at 1,5% on sheep skins .

It is used from 1,3% to 1,8% on pigs skins .

It is used from 0,8% to 1,2% on calves .
