

TECNICAL FORM

SYNTAN VS

COMPOUND VEGETABLES ETRACT

CHEMICAL COMPOSITION

MIX VEGETABLES TANNIN

Characteristics :

Appearance :	Brown Powder
Concentration :	70 %
Ph (10%) :	4 + 0,3 %

PROPERTIES

SYNTAN VS is a compound of vegetables extract. If used like retanning agent helps a lot the fullness of the skin conferring softness and very good grain (Thin and compact). T particularly suggested fo articles with vegetable retanning specially if the article must be washed or printed. We sugest to use from 2-3% in chrome in order to give fullness. Used from 10 to 15 % in vegetable retanning to obtain the best effect.
