

## DESOLVENT D

AUXILIARY DEGREASING  
CHEMICAL COMPOSITION

Combination of oxyethylate primary alcohols

### CHARACTERISTICS

Properties :	colourless liquid
Active substance :	45 -55 % about
Ionic Charge :	non ionic

### PROPERTIES

DESOLVENT D is a degreasing agent recommended as wetting, emulsifying, dispersing agent during the degreasing phase on skins that contain excessive natural fatty substances.

DESOLVENT D is used as a degreasing agent on sheepskin and pigskin, but is also used on all types of skins during the phases of soaking, liming and bating.

DESOLVENT D can be used for light leathers such as calfskin but it is recommended to use small doses so as to avoid the excessive emptying of dermal substances

### USE

0,3 % to 0,5% is used on sheepskin
